

Hamiota Collegiate Wins Business Competition

Congratulations to students Shania-Marie Hatfield, Mikaela Jay, Morgan Strachan, Jacinda Debin, Ashley Czarnecki and teacher Jerry Crampain of Hamiota Collegiate for placing 3rd in the provincial business competition through the Manitoba Chamber of Commerce.

The Manitoba Chamber of Commerce and the Manitoba Research Institute (MRI) in assistance with the Red River College conduct a business game called the Young Entrepreneurs' Challenge. This business game uses a computer simulation.

Schools from across Manitoba compete in this grueling business game of Management and Accounting skills. The teams are given 6 million dollars to begin their venture and have to decide on 9 different areas, ranging from Pricing and Marketing to Production and Inventory, to make decisions within their business, thus bringing the highest return on investment possible (ROI).
