

Relationships with Other Educational Organizations

It is the intent of the Park West School Division to hold membership in the Manitoba School Boards Association and to encourage trustees to become involved in the business, committees and seminars sponsored by MSBA, as appropriate.

The Board is committed to cooperate, wherever possible, with other school boards, educational organizations and agencies in the province in the interest of the promotion of public education and the resolution of educational issues.

The Board will support its senior administration in terms of membership and involvement in their respective provincial organizations, specifically; Manitoba Association of School Superintendents (MASS); Manitoba Association of School Business Officials (MASBO); and Student Services Administrators' Association of Manitoba (SSAAM).
