

## ***COVID Notification - May 14, 2021***

We just received notification that Strathclair School has a staff member who has tested positive for COVID. Given that the individual has been isolating since May 3, no contact tracing is required and there is no risk to students or staff. One student who is a family member is also isolating. We recently reported six students at the same school and another staff member who tested positive. All three instances are the results of separate community transmission outside of the school.
