Topic: COVID-19 Notification – Miniota School

Last night and this morning, we learned that four additional Miniota students have tested positive for COVID-19. We now have five students in the school who are positive including one confirmed yesterday. The positive student cases consist of one in the Grade 2/3 classroom, one in Grade 3/4, and three in Grade 5/6. Additionally, we have a confirmed case with a bus driver on route MI-2. Out of an abundance of caution, the school and division have decided to close Miniota school today to allow time to contact Public Health and complete the investigation and contact tracing.
