

### **Student Services Program**

Park West School Division Student Services program will support appropriate educational programming for all students. This means that:

- Educational programming will be provided in the most enabling environment available. In the majority of cases, inclusion in the regular classroom will be expected.
- Educational programs will be adapted, modified or individualized as appropriate to meet the unique needs of each student.
- A collaborative team approach will be used to plan appropriate programs. The team will typically consist of parents, educators, clinicians, support personnel, appropriate outside agencies and the student (as appropriate).
