**Topic:** **COVID-19 Vaccination Clinics in Schools**

---

This week, the Province announced that COVID-19 vaccination clinics will be offered in Manitoba schools. Park West schools will be hosting these clinics over the next month or so.

- Vaccinations will be offered during school hours for school-aged youth. Immunization teams will attend all schools with students who were born on or before Dec. 31, 2009, to provide first and second doses.
- Park West schools may also be booked for adult clinics, provided these are scheduled after the end of the school day.

Individuals younger than 16 will be required to have written consent from their parent or guardian to be immunized at a clinic that is held in a school during school hours. However, those 16 and older are considered mature minors under provincial legislation and can sign their own consent forms.

Additional information will follow including from your home school which will include the dates and times of the clinics, the consent process, and information about the COVID-19 vaccine.
